*the standard*  
*tummy tuck*

*"I was compelled to develop a more genuine natural appearance after tummy tuck surgery. The True Form Tummy Tuck™ is a culmination of my efforts to produce results that more authentically capture and restore the simple, sensual beauty and elegance of the abdomen.*

*With this sophisticated approach, I redefine the abdomen's attractive contour nuances and create soft, smooth transitions to avoid the flat-as-a-board look and other common pitfalls of the standard tummy tuck."*
